

# CARBOFLASH FOOD

- Compliant for food according to EC 1395:2004
- Mounting on gas cylinder dip tube
- Velegnet til ALIGAL gasser
- High pressure flexible hose appropriate to CO2 TP liquid phase

Levnedsmidler

## Applikationer

CARBOFLASH FOOD is a mobile, self-contained unit, allows, starting from a bottle (CO2 ALGAL 2 TP ) directly on the site ,a production of "snow" as well as a carbonic gas cloud.

(-78°C at atmospheric pressure)

The dry ice thus produced ensures a very good inertage of the grape harvest in transport, in the conquests, presses and tanks of reception.

This process ensures a very good protection against oxidation

### Designet til implementering af

Flydende kuldioxid (CO2 DT)

### Undtagen

Alle andre gasser

## Specifikationer

FOOD LOGO MARKING - Flexible hose in FEP

Operating pressure..... 110 bar

..... 110 bar

Flowrate: .....6,5 Kg/min

### INFO +

The flexible hose has a maximum life of 5 years from date of manufacture

## Højdepunkter

En del af den nye Food-serie

# Dimensioner

Længde (L) : 5 m

Ø2 : 6 mm

## Brugermanualer

OP 902

## Tilslutning

**Indgangstilslutning:** Indgang: HP gasflaske forbindelse i overensstemmelse med gas

## Bestellingsinformation

CARBOFLASH FOOD is a complete set including a L 5m flexible hose and its whip cable with gas fitting (hand tightening), a handle with gachette, a tromblon with 3 nozzle spraying 1.5 mm, a 110 bar spark gap
